PROJECTS

G-DAWGS

React, Node.js, JS, CSS, Heroku, Firebase

- This was a one day group project. The goal was to make a full stack app with a RESTful api. My major contribution was building the backend and the logic in the React app.
- Deployed site: <https://galvanize-dogs.firebaseio.com/>

ZEN GALLERY

React, HTML, CSS, JavaScript, APIs

- Pulled from a quotes API and stockphoto API and used React to create a relaxing photo experience for users
- Github Repo: <https://github.com/hayz999/Zen-Gallery/tree/master/drills/version-1>
- Deployed site: <https://zengallery-48a6b.firebaseio.com/>

WORK EXPERIENCE

ONBOARDING SPECIALIST/PROJECT COORDINATOR

OpenTable | July 2015 - February 2018 | Denver

- On-boarded clients efficiently using internal processes.
- Collaborated cross-departmentally to ensure a great client experience.
- Communicated with 600+ regularly. Trained dynamic teams remotely and configured system settings with managers and owners.
- Organized workflow and processes using SalesForce and Microsoft Office Suite.

KNOEBEL EVENTS MANAGER

University of Denver | June 2012 - June 2015 | Denver

- Managed a team of servers, kitchen staff, and barstaff to provide smooth and excellent service to clients. Provided performance feedback for staff to help them grow and improve in their roles.
- Organized logistics for all events day of using Banquet Event Orders.
